REGION 5 REDELEGATIONS MANUAL

Purpose. This transmittal provides a revision to the existing Region 5 Redelegation 7-114 (Implementation of Operating Permits Program) for the Region 5 Redelegations Manual.

Explanation. Delegation 7-114 authorizes the regional administrator, in pertinent part, to promulgate and administer the operating permits programs under Title V of the Clean Air Act (CAA) and 40 C.F.R. Parts 70 and 71. In Region 5, these authorities are currently redelegated to the director of the Air and Radiation Division (ARD), with advance concurrence required from the regional counsel.

Under revised redelegation 7-114, these authorities will be redelegated to the chief of the Air Programs Branch in ARD. In addition, the authority to issue draft Federal operating permits will be redelegated to the chief of the Air Permits Section in the Air Programs Branch. Exercise of all authorities under revised redelegation 7-114 will still require advance concurrence from the regional counsel.

Filing Instructions. Post receipt of this transmittal on the checklist of EPA transmittals in the Region 5 Redelegation Manual.
